Delightful Reception.

The home of Mr. T. W. Moses was the scene of quite a delightful reception Saturday evening, May 29, given in honor of the seniors and faculty of Appomattox Agricultural High School. Miss Nettie Moses, one of the most popular members of the class of 1920, made quite a charming hostess. Miss McConnell served at the punch bowl. After several hours of mirth and merrymaking, the guests were ushered into the dining room, where refreshments were served by Mesdames T. W. and C. T. Moses and M. J. Mann and Miss Louise Gills. The color scheme was most artistically carried out in gold and purple—the class colors — with here and there a bower of gorgeous white roses and ferns. A circle of twenty candles, representing the class of 1920, pictures quely lighted the room.

Henry B. Young

On Saturday night, May 29, Mr. Henry B. Young passed away very suddenly at his home near Pamplin. During the day he was in his usual health, but in the early evening was taken suddenly ill and remained speechless till his death, about 11 o'clock. He had the loving attention of his daughter Ruth and the best medical skill, but he was beyond human aid.

Deceased was a member of Pamplin Presbyterian church and always clung to his faith in the Lord. His body was laid to rest by the side of his mother in the family burying ground at his old home, where a large concourse of sorrowing friends and relatives gathered to pay their last tribute of respect. "Shall We Gather at the River" and "Nearer, My God to Thee" were sung at the grave.

He is survived by his wife, Mrs. Bettie Young, and four children—Misses Ruth, Mary and Bernice Young and Mrs. Bennett Meadows, of Pamplin; two sisters and a brother—Mrs. Jack Moore, Miss Bettie Young and Mr. Willie Young. R Y

High Prices in Early New York.

During the British occupation of New York in Revolutionary days, the method was to sell in wholesale lots at public auction and to issue revocable licenses to retailers. The best flour then sold for $14 a barrel, bacon at 32 cents a pound and beef at 18 cents a pound. Wages were less than 50 cents a day.

A special feature of the commencement was that it was a special alumni year, and a large number of the old students were present. Mr Walter Durham, an Appomattox boy, delivered the address to the graduates, and it was considered a very fine address. Walter was of the 1912 class and since that time has been to higher institutions and has taught at the V. M. I. for several sessions. Mr. Jerry Burke, another alumnus, delivered the medals in a very pleasing manner. The first honor medal, given by R. F. Burke, went to Miss Cornelia Gills; Improvement medal, given by T. W. Moses, went to Mattaur Carr; Agricultural first honor went to Berkeley Andrews, and a scholarship to Richmond College, valued at $75 00, went to Miss Lucile O'Brien. A special orchestra from Lynchburg furnished the music. The class was in full uniform and presented a very striking appearance.

On Monday night the literary societies held their annual contest and gave a very interesting program. The program was as follows:

WASHINGTON

Oration—Berkeley Andrews.

Debaters—Stella Payne, Edwin Adams; negative.

Musical Selection — Sammie Ferguson.

Reading—Cally Babcock.

LEE

Oration—Nettie Moses.

Debaters — M. Carr, Lucile O'Brien; affirmative.

Musical Selection—Eloise Atwood.

Reading — Marguerite Chilton.

Subject—Resolved, That the League of Nations should be adopted by the United States.

There was much rivalry between the two societies and the contest close throughout. The judges, however, gave the victory to the Lee Society, but by only one point.

On Sunday morning Dr. J. L. Franklin, formerly an Appomattox boy but now of Boston, Mass., where he is secretary of the Northern Baptist Mission ary Board, preached a very excellent sermon to the class.

On Tuesday morning a very interesting musicale was held in the auditorium and the following program was rendered. The program was well rendered and drew a large attendance:

Throughout the week the town was filled with visitors and guests who came to attend the finals of the school. The boys and girls have now gone to their homes and the streets of our town seem rather lonely since it is now all over.

The session has been one of much success. Of the 125 or more pupils in the high school Principal Crawley reports only six failures in the school year. This is rather an unusual occurrence. The hope for a still better school next year is already anticipated; and while it will be difficult to hold good teachers, everything possible will be done to get good teachers, if possible.

Picturesque New Zealand.

New Zealand is a land of mountains, gorges, rivers and fjords. The higher peaks of the south island are eternally snow capped and the glaciers of its southern Alps rival those of Switzerland. The surrounding seas are too cold for corals. Among the mountains of the north island volcanic fires are still active and the geysers and hot springs are little less impressive than those of the Yellowstone park.

Revival of the Troubadour.

The troubadour is imagined as a long-haired creature with a big lute. But the real meaning of the word is one who "finds out" his own songs. In Provencal the word is spelled "troubaire" or "trovador." It comes from the verb trobar—trouther—to find.

The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There is'nt a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
